
PKCELL ER34615M D 3.6V 14000mAh LI-SOCL2 Battery Factory

PKCELL

PKCELL

PKCELL

PKCELL

Typical Applications:

Alarms and security systems, GPS, metering systems, memory back up, tracking system and GSM communication, Aerospace, Defence, Military, Power Management, Portable Devices, Consumer Electronics, Real-time clock, Locking& Tracking system, Utility metering,etc.

Specifications:

Model name: ER34615M

Size: D, $\Phi 34.2\text{mm} \times 61.5\text{mm}(\text{Max})$

Nominal capacity: 14000mAh

Nominal voltage: 3.6V

Operating temperature range: -55°C to 85°C

Max Continuous Discharge current: 2000mA

Max Pulse Discharge current: 3000mA

Cut-off Voltage: 2.0V

Typical weight: 106g

Typical Shelf life: 10 years

Available Terminations: 1) Standard terminations 2)Solder tabs 3)Axial Pins 4)or special requirement(wire, connectors, etc)

Features:

- 1) High Energy density, High voltage, stable during most of the application's lifetime
- 2) Wide range of operating temperature
- 3) Long self-discharge rate ($\leq 1\%$ per year during Storage)
- 4) Long storage life (10 years under room temperature)

- 5) Hermetic glass-to-metal sealing
- 6) Non-flammable electrolyte
- 7) Meet IEC86-4 safety standard
- 8) Safe to export MSDS, UN38.3 cert. available

Storage condition:

clean, cool (preferably below +20°C, not exceeding +30°C), dry and ventilated.

Warning:

- 1)These are non rechargeable batteries.
- 2)Fire, explosion and burn hazard.
- 3)Do not recharge, short circuit,crush, disassemble, heat above 100°C incinerate.
- 4)Do not use the battery beyond the permitted temperate range.

Li-SOCl ₂ (Power Type)							
Model IEC		Nominal Voltage(V)	Dimensions (mm)	Nominal Capacity (mAh)	Standard Current (mA)	Max Continuous Discharge Current (mA)	M D Cu
